Our attention has been called to a remark made by the New York Trib-une which would intimate that the journal referred to didn't like acting ster G. We can't all marry rich and travel over the country and edit our papers vicariously. That is something that can only happen to the blessed few.

It would be nice for us to go to Europe and have our pro tem. editor Europe and have our pro tem. editor at home working for \$20 per week and telegraphing us every few minutes to know whether he should support Cornell or Folger. The pleasure of being an editor is greatly enhanced by such privileges, and we often feel that if

This we should dislike to do very much because we have taken the Tribune for The United States census of 1880. cause we have taken the *Tribune* for years. We used to take it when the editor stayed at home and wrote for it.

Worthy Son of a Worthy Sire. From the Providence Journal.]

The common southern phrase was never more appropriately applied than is that of "high-toned," to the letter of Ben. H. Hill, son of the late Senator Hill, declining the appointment by the Governor of Georgia, as Sen-ator, te fill the unexpired term of his father. The universal esteem of the father. The universal esteem of the people of Georgia, for the late Senator, found expression in a petition to Governor Colquitt, to appoint the son as Senator. To this there was developed an opposition, which it seems would have made no impression upon the Governor. Not so as to the son. In a letter, as tender as it is manly, he requests the Governor to refrain from the intended appointment, and he does so in a spirit of veneration for the memory of his father, and under a sense of what is due even to a fraction of public opinion, which proves him to be worthy of the profound honor, and what is more, worthy of the title of gentleman in its highest significance.

The hummness produced by arsenic is not duces mental exhibitantion. The plumpness produced by arsenic is not natural plumpness, but rather a dropsical condition of the skin. Cessation of the habit causes this water-distended

Of course no woman is willing to submit to this ordeal when it may be pre-vented, at the mere sacrifice of health and intellect, by a continuation of the use of the drug. The inevitable re-sults of the arsenic habit are hideous and incurable cutaneous eruptions and loathsome diseases of the scalp, falling out of the hair, dropsy, and oftentimes insanity. EXPERT TRAIN ROBBERS.

They Secure Over Five Thousa Dollars and Escape. DENVER, October 1.-Full particulars of the train robbery at Grenad Col., was received here to-day, as fol-lows: While the west-bound train was on a side track to allow the east bound passenger train to pass, two men mounted on the engine, and with drawn revolvers, compelled the engin-eer to run the train a mile and a half

eer to run the train a mile and a half out of town, where fifteen men, with revolvers took possession of the train.

The only shots fired were at the conductor, Dees, who had gone forward to learn the cause of the train stopping. The conductor ran back into the smoking car, where a sheriff and Deputy Sheriff from Raton, also a Sheriff from Las Vegas, were. They drew their revolvers, which saved the passengers from losing their valuables. The robbers then robbed the express car of \$5500 in money, ordered the engineer to pull out, got their horses, which were hitched near by, and departed. A safe in the rear car containing \$10,000 remained secure. A posse of citizens—has gone in pursuit of the robbers.
